

# *See Through the Scriptures*

“People are asking many challenging questions, which I enjoy immensely – and which lead to many in-depth discussions. People are anxious to hear about and study the broad brush and scope of the big picture of the Bible.”

- Rev. Jeffrey Jahn  
Buffalo Prairie Presbyterian Church  
Buffalo Prairie, Illinois

“This is great material both visually and cognitively for stimulating wonderful discussions among the Senior High School students and University students who want to grow in their biblical knowledge. They are reading, asking questions, and coming back for more and more.”

- The Rev. Eric Phinney  
St. James the Less – Anglican  
Rothesay, New Brunswick, Canada

“STS is very effective as the second part of our three-part series in our Discipleship Program. People get excited about it because there is a huge hunger for understanding what Scripture says to us today. The study is simple enough for them to understand and grasp easily.”

- Rev. Kenton Birtell  
Mount Calvary Lutheran Church  
Holdrege, Nebraska

“What do I especially like about this course? The pictures – and the biblical overview helps my 7<sup>th</sup> grade confirmation students with their understanding of and ability to communicate their faith. I use it for class settings as well as one-on-one instruction.”

- Pastor Mary Giltvedt  
Grace Lutheran Church  
Gryla, Minnesota

“A collective and cooperative-based ministry effort, involving five congregations in our area, inspired twenty-four people to dig deeper into the Bible as we together studied STS on two consecutive Saturdays. People’s appetites have been whet, and they now want more biblical history detail with a broader exposure to the Bible’s big picture.”

- Pastor Steve Bieghler  
Lamb of God Lutheran Church  
Anaheim, California

“This study is eye-catching, consistent, and easily interpreted. The materials are very clearly presented; they are informative and enlightening. My eyes have been opened. I have learned that I must show God’s compassion by living compassionately. The story of God is now easier to understand. I want to participate in more Bible study and ‘listen’ to what Scripture says – not just read it.”
